Arch Clothes Valet

STEAM BENT BEECH WOOD CLOTHES VALET

The Arch Clothes Valet enriches the furnishing proposal that Front, the Swedish designer trio, created for Wiener GTV Design in 2014. An element that embodies the brand's signature style in its linear simplicity, updated with an unexpected twist thanks to the two-toned wood. Ironic yet discreet, the Arch Clothes Valet adapts easily into the personal area of any home, like the bedroom or bathroom.

Ladder

STEAM BENT ASH WOOD DECORATIVE ELEMENT

With LADDER , Charlie Styrbjörn Nilsson has used the technique of steam bent wood to create a decorative element for interior use whose solid wood gives strength to a slender and light structure where the rungs, that have a rounded line on one side, follow one another in a mirror-like way, defining the direction of the ascent. Ladder is a versatile accessory, which can revamp a room with its unexpected presence, lending itself to many uses both in the living area and in the bedroom. It is a support point where various accessories can be hung or applied, a decorative element with a practical side.

Giò Colonna Romano

Mr. Giò specchio

PLAYFUL MIRROR

Mr. Giò is a ladder-sculpture with an ironic and fun shape. It is ideal to disguise the useful 'ladder' in the house, transforming it into a fundamental design element that is coloured and unique. The shape resembled a man in a bowler hat, a real valet stand ideal to furnish any restroom or bedroom, available in neutral colours, such as grey or black for classical tastes, and vibrant colours for an original look. It is also available in the luminous backlit Mr. Giò Light with neon lights and in the mirror version Mr. Giò Light Specchio, broadening the range of furnishing options.
